Dear Mr. Glazier:

Re: Approval of Request for Time Extension, Final Reclamation Plan, 5M, Incorporated, Silver Reef Mine, M/053/002, Washington County, Utah

We have received your letter dated August 9, 1989, requesting an additional 30-day time extension to submit the reclamation surety of \$46,790 for the Silver Reef minesite. It is our understanding that 5M, Incorporated will be acquiring supplemental funding for continued operations, no later than September 15, 1989.

As indicated in our January 23, 1989 letter to you, the total reclamation estimate for the Silver Reef Mine is \$102,000 (1993 dollars). We requested that 5M Inc. provide \$46,790 of this total pending the legal outcome of the Kerley Industries reclamation bond issue. A deadline of July 26, 1989 was given to 5M Inc. to resolve this question. The operator was informed that he would be held responsible for posting the additional \$55,210 should he fail to obtain the legal right to Kerley Industries reclamation bond. The operator has failed to meet the July 26, 1989 deadline. You have indicated that until the new supplemental funding is acquired, your pursuit of this issue will remain suspended.

***The Division will grant 5M, Incorporated a time extension until October 15, 1989, to resolve the legal issue regarding Kerley Industries reclamation bond, and to provide the required reclamation surety to the Division. Please be advised that no further time extensions will be granted.***

Should 5M, Inc. fail to meet the aforementioned deadlines, the Division will be forced to revoke the Notice of Tentative Approval to your reclamation plan, and commence reclamation of the mine site. The forfeited Kerley Industries bond will be used by the Division to initiate reclamation. As provided in the Mined Land Reclamation Act, 40-8-14(5), any additional expenses incurred by the State in completing the required reclamation may be obtained from 5M Inc. through appropriate legal procedures of the Utah State Attorney General's Office.

Enclosed with this letter is a copy of a Reclamation Contract, FORM MR-RC. The appropriate portions of this contract must be completed by 5M, Inc., the desired form of reclamation surety must then be attached, and returned to this office. Upon receipt, the Division will request the Board of Oil, Gas & Mining's approval of the amount and form of reclamation surety during the next scheduled hearing. Acceptable forms of reclamation surety are listed under rule R613-004-113.

Please contact us at your earliest convenience should you have questions or concerns regarding the requirements of this letter. Thank you for your cooperation in completing this permitting action.

Sincerely,

Lowell P. Braxton  
Associate Director, Mining
